Dear Mr. Wesolowski:

Thank you for your letter received this date. My apologies that your first correspondence of April 28/73 was not answered.

If my memory serves me correctly I recall seeing a letter come from Omaha, and of course inquiries like this are referred to our Chief Engineer. As of this current week our Chief Engineer has been replaced by David Romant as Acting Chief Engineer with our heavy work being assigned by contract.

This will verify your inquiry of a test transmission by WGLB-AM as you described on April 28, 1973 from 1:05 to 1:37am.

Thank you for your inquiry and may you have success on your monitoring.

Yours very truly,

WGLB, INC.

Daniel C. Palen
President & General Manager
